

## WILSON REFUSES TO RELINQUISH TREATY DRAFTS

### Request of Foreign Relations Committee Denied

WASHINGTON, Sept. 1.—The request of the foreign relations committee for latest draft of the proposed treaties with Germany's allies has been refused by President Wilson on the ground that compliance would set a precedent encouraging senatorial encroachment on the presidential power of treaty negotiation. In an exchange of letters made public today Mr. Wilson wrote that it was out of the question to accede to the committee's suggestion and Chairman Lodge replied that although the treaties were closely connected with the treaty with Germany the president undoubtedly had authority to keep information about them from the senate. From correspondence apparently brought another impasse between the president and the committee on the subject of what information the senators should have in their consideration of the treaty. Mr. Lodge and others have declared the committee could not act intelligently until all for the Versailles treaties were before it, but at the White House conference Mr. Wilson told the committee that the form to be taken by the four treaties under negotiation depended largely on the senate's action regarding the instrument now before it. A copy of the agreement of June 16 relative to the Rhine district also was denied the committee, the president writing that it would only become pertinent after the treaty was ratified and that its publication now might be embarrassing to other governments. To this Senator Lodge replied that it already had been published in a British white book and from that source had been circulated in this country.

The correspondence was made public by Mr. Lodge who indicated that no further effort would be made by the committee in the matter.

The committee tomorrow will resume its hearings and probably will have another executive session to work on proposed amendments and reservations. The only amendment pending before the committee now is a proposal by Senator Fall to strike out the provision for an international labor organization. When amendments have been disposed of drafting of the ratification resolution will be taken up. It is expected that the committee draft will include several reservations to the league of nations covenant. At its hearing tomorrow, the committee will question Eugene Pivny of the Hungarian-American federation.

## Carranza Reads His Message To New Congress

MEXICO CITY, Sept. 1.—(By the Associated Press).—A defense of Mexico against foreign representations, particularly from the United States, regarding the lives of foreigners and their property, was contained in a message of President Carranza read at the opening session of congress tonight. Particular reference was made in the message to alleged injustices practiced against Mexicans in the United States.

A long list of the alleged offenses are given under the section of the address devoted to foreign relations. The message also defended Mexico's neutrality during the war and protested against charges that the Mexican government was incapable and unwilling to protect foreign lives and property. President Carranza asserted that Mexico did not ask admission to the league of nations because, he said, the league did not establish equality for all nations and races. He reiterated that Mexico had not and would not, recognize the Monroe Doctrine. Regarding oil legislation the message said the government was willing to conciliate, but would not sacrifice its national sovereignty.

### BILL FAVORABLY REPORTED

## General Strike In Peoria Comes To Close Monday

PEORIA, Ill., Sept. 1.—The general sympathetic strike which began here last Thursday, came to a close here tonight without any demonstration on the part of the 10,000 union workers out on either the general strike or other walkouts. Every man in the city who has been out on the general strike called for the purpose of protesting against alleged blacklisting on the part of Peoria manufacturers, will be at work tomorrow morning letter announced. Only those workers who were already on strike when the general walkout was called will be absent from their posts tomorrow.

At the Avery Farm Implement Plant, the Barrett Roofing Plant, the Stucker and Kuck Tinware Plant, the Keystone Steel & Wire Company plant and the Hart Grain Weigher Company workers toiling—approximately three thousands are still out. As many miners also will not return to work tomorrow but the ice handlers and the teamsters will both be on the job in the morning, it was declared.

A huge picnic of all the strikers was held today at Central Park. The strikers marched from the south end of the city where most of the large manufacturing plants are, to the north end this morning and this afternoon held a general picnic in the park.

State Representative Charles S. Stubbs was the chief speaker of the day. Representative Stubbs, who is an attorney, has represented Peoria miners in several cases involving fights resulting from their strike. He declared the strike had been a success, and that the strikers had gained their point.

Kenneth Pindle, a returned soldier, recently arrested in connection with a strike disturbance here was marshal of the day. He and Thomas Tippet, secretary of the Peoria Defense League, both declared the strike had been a success and the manufacturers' alleged blacklisting of union men.

## RECOMMENDS A DECLARATION OF A LABOR TRUCE

### Gotham Body Would Give Wilson Chance to Reduce H. C. L.

NEW YORK, Sept. 1.—Suspension of all strikes in the United States and the declaration of a labor truce on the basis of the status quo for six months or more to enable President Wilson to bring about reduction in the cost of living is recommended in a report of a committee of the New York State Federation of Labor, made public today.

The report says: "As a result of President Wilson's appeal backed by the attitude of Samuel Gompers and the leaders of the railway brotherhoods, the threatened railroad strike was averted and the country spared a terrible tragedy.

"On every hand there are strikes and threats of strikes. Most of these disturbances have been provoked by radical agitators who have not the interests of the toilers at heart, but who seek to promote industrial warfare for the purpose of destroying our present economic system and substituting 'industrial ownership by the proletariat.' Fortunately the same leaders of organized labor have succeeded in regaining control of their temporarily rebellious unions and restoring orderly procedure under the laws and rules of the American Federation of Labor.

"The conduct of men who call themselves 'loyal supporters of trade unionism' in breaking away from the authority of their duly elected officials and inaugurating unauthorized strikes should be severely condemned and the agitators who have caused such outbreaks should be visited with the severest penalties possible under trade union rules for trade unions to permit themselves to be brought under the influence of lawless agitators at this time of national stress is treason. It would be not too severe punishment to revoke the American Federation of Labor charters of such unions and put them outside the pale of decent organized labor. Your committee is of the opinion that President Wilson's reasoning is based on sound economic principles and that organized labor owes a duty to the president to give him whole hearted assistance in his efforts to reduce the cost of living and place the nation on a strong business basis. We owe the president the same loyal support that we gave him during the war."

### PRIESTS KILLED BY SOO LINE LIMITED

## Holiday Quiet In Knoxville After Rioting

KNOXVILLE, Tenn., Sept. 1.—Under heavy patrol by national guardsmen and special officers following the race riots of Saturday and Sunday in which two men were killed and sixteen sent to hospitals with wounds, Knoxville today passed a quiet holiday. Two of those wounded Saturday night were expected to live. Sheriff Cate tonight caused the arrest of ten white men on charges of assisting prisoners to escape when the jail was attacked Saturday night. Other arrests on this charge and that of rioting are promised. The situation was so improved tonight that the third battalion of the fourth Tennessee infantry was sent home. All other outside companies probably will be released tomorrow.

Labor day celebrations were held separately today by the whites and negroes, as originally planned, the only change being that a scheduled parade was abandoned.

### No Disorder Reported.

Knoxville, Tenn., Sept. 1.—Quiet prevailed throughout the city and suburbs this morning, after the race rioting of Saturday night and Sunday. Last night military patrols were established in the business section and in the territory where negro population is greatest. No disorder was reported. Pedestrians and automobiles were ordered off the streets at 10 o'clock. Every pedestrian or automobile seen was held up by a soldier or policeman and was made to give an accounting before being permitted to proceed.

Despite the fact that today is a holiday, expected crowds had not appeared on the streets during the morning. Here and there groups of men appeared but they were not permitted to gather in numbers, the "move on" order being enforced by police and military patrols. Negroes were searched for fire arms and other weapons.

## Dempsey Will Accept French Fighter's Offer

DECATUR, Ill., Sept. 1.—Jack Kearns, manager of Jack Dempsey, announced tonight that he would accept an offer just received from the manager of Georges Carpentier, French Champion, for a match in England between Dempsey and Carpentier for a purse of \$175,000.

The offer was received early Monday morning by cable just as the theatrical company of which Dempsey is a member was leaving for Decatur from Detroit. Kearns did not know Monday where the bout would be scheduled if he accepted, but it was his opinion that it would be staged in the National Sporting Club in England.

Dempsey is already tired of the theatrical game and expressed the opinion Monday night at his appearance in a local theater that he wanted to get back into fighting togs as soon as his fifteen weeks' tour was over.

Providing the offer is accepted, Kearns said that he would also accept an offer for a theatrical tour thru Europe while over there.

## Daniels Reviews New Pacific Fleet At San Francisco

SAN FRANCISCO, Sept. 1.—Forty-two grey giants of the American navy today steamed from their overnight anchorage off Bolinas bay, north of San Francisco and piloted personally by Admiral Hugh Rodman, commander in chief, swept thru the Golden Gate and passed the famous old battleship Oregon, the reviewing ship in a marine spectacle which thrilled a multitude of spectators. It was the review here of the new Pacific fleet by Secretary of the navy Daniels and other national, state and municipal officers. In addition to these in the review a train of nine supply and fuel ships later entered the harbor and cast anchor.

**Thrilling Ceremony.**  
San Franciscans who, ashore, lined the Marina off which the Oregon was anchored, and San Franciscans who in a myriad of small crafts lined the waterway of the naval procession, sought through cheers to express the patriotism they felt as they saw and heard the ceremony.

From every hill and structure overlooking the broad sweep of the harbor, countless thousands had gathered since early morning to view the pageant. Not since May, 1908, when the Atlantic fleet visited this port on its tour of the world had San Francisco been spectator to a naval review.

Majestically the long line of warcraft crept carefully thru the Golden Gate, past the presidio military reservation and the once impregnable Fort Point, past the modern Forts Miley and Winfield Scott on the San Francisco side of the harbor and under the long range guns of Fort Baker and Barry hidden in the golden brown hills of Marin county on the opposite shore, where Mount Tamalpais stands sentinel to the Golden Gate.

### Formalities Begin at 10

The formalities began with the anchoring of the Oregon, commanded by Captain Ivan Wetting, off the old exposition grounds—now the Marina—at 10 o'clock. About 11 Mr. Daniels and the secretary reviewing party boarded the historic vessel.

As the secretary reached the quarter deck and the naval form for his advent was fulfilled, the big guns at Fort Scott boomed a salute of 19 guns. By this time a long line of the fleet—coming single file—was approaching the gate, led by the dreadnaught New Mexico and with the dreadnaughts Mississippi and Idaho following at intervals of 700 yards.

The next group commanded by Rear Admiral R. E. Coonts was composed of his flagship, the dreadnaught Wyoming, New York and Texas, following, preserving the distance of 700 yards between ships.

Vice Admiral Clarence S. Wilham, of his flagship the dreadnaught Vermont, led the next group, which also included, in this order the pre-dreadnaught Nebraska, the armored cruiser North Carolina, the pre-dreadnaught Georgia and the cruiser Seattle.

Rear Admiral Henry A. Wiley commanded the group in his flagship the cruiser Birmingham and the destroyers Ludlow, Crane, Anthony, Williams, Chancey, Sproston, Lambertson, Breese, Ramsey, Radford, Gamble, Montgomery, Rathburne, Buchanan, Elliott, Waters, Dent, Philip, Yarnall, Tarbell, Wickes, Woolsey, Lea, Ward, Boggs, Walker, Thatcher, Crosby, and Palmer. They proceeded at intervals of 350 yards.

## DRASTIC CHANGES IN CIVIL SERVICE SYSTEM PLANNED

### Federal Salary Commission Seeks to Benefit Employees

WASHINGTON, Sept. 1.—Drastic changes in the civil service system to benefit federal civilian employees are under consideration by the federal salary classification commission, Edward Keating, secretary of the commission today told the convention of the National Federation of Postal Employees.

"Women who do the same work as men should receive the same pay," Mr. Keating said. "We believe in a system of promotion which will lead from the lowest end of the ladder to the highest. We also are convinced that civil service employees should not be placed at the mercy of any bureaucratic tyrant, no matter what his position might be. The civilian employee is entitled to a fair hearing before an impartial court if he has grievance."

Representative O'Connor of Louisiana warned the postal employees against striking unless it is a last resort and that the way to win recognition is by the power of the federation at polls.

"Don't form a third party," he declared. "It would be weakening to your cause. Support one of the two existing parties that gives you the legislation you demand."

Representative Nolan of California, speaking of the high cost of living, said that "if the president can't do the things he promised to do in reduction of price then the government, as an employer must bring up wages to meet the cost of living."

Representative Madden of Illinois, champion of the resolution to increase the pay of postal employees \$150 a year, told the delegates that "it was the best that we could get" at the present. He said he knew the bill would pass congress.

Service betterments sought by the organization as outlined by Thomas F. Flaherty, secretary treasurer, include a higher wage standard, a punitive rate of time and a half for work in excess of 8 hours, double time for Sunday and holiday work, unnecessary night work eliminated, Saturday half holidays, thirty days sick leave annually with full pay and indefinite sick leave on half pay longer vacations, retirement of aged postal workers, creation of a court of appeals for employee and recognition of the postal organizations.

## Discord In The Socialist Party On the Increase

CHICAGO, Sept. 1.—Discord in the Socialist Party increased today when right wing delegates to the national emergency convention split over a proposal to exclude from the floor seceding left wing delegates who previously had left the meeting and announced their intention of uniting with the Communists. The motion was defeated by two votes.

Left wing delegates met with leaders of the Communists who opened a national meeting today. The opening of the Communist gathering was enlivened by an order from the police that red banners and festoons adorning the walls of the hall be pulled down and American flags substituted. The red banners were taken down after a delegate, who gave his name as Charles Montgomery and said he was an attorney, had been arrested for disorderly protestation.

Chairman Lewis Fraim of New York said at the Communist meeting that the convention was called to discuss the new era in the history of the nation. The times, he asserted, called for revolutionary actions.

Leaders of the right wing Socialists comprising the conservative majority declared today that the split in the party would be watched up by tomorrow night. Seymour Steadman, chairman of the convention said perhaps left delegates had left the meeting.

"Some of them can't come back if they desire," he said. "They probably will join the Communists. I don't believe there is the slightest possibility that the party will divide into two factions."

It is said that the convention will take up before adjournment proposed amendments to the constitution which will permit negotiations between the party and the non-partisan league and other farmers' organizations.

### Quincy Firm Faces Federal Court Trial

QUINCY, Ill., Sept. 1.—What is termed by government officials to be the most important cases of conspiracy to defraud the government in the filing of war contracts to come to trial during the war will come to trial before Judge FitzHenry of Bloomington in the federal court here tomorrow.

Fred Wolf, Sr., and Paul Wolf, a son, member of the Wolf Manufacturing company of Quincy, are the defendants and the prosecution foresees a possibility of requiring several days to secure a jury.

Members of the Wolf company were arrested more than a year ago on complaint of government inspectors who were working in their plant while large contracts were being filled for leather goods for the army. The company was making saddles, halters, carbards and other leather goods for the army. The members of the company are charged with shipping out faulty articles after they had been rejected by the inspectors and with obliterating rejection stamps. Many pieces of inferior goods are charged to have found their way into the service as the result.

Special attorneys and agents for the department of justice in Washington have been working here for several weeks preparatory to the hearing of the case and say it is one of the most important that the government has had to deal with. Nearly one hundred witnesses have been summoned by the government.

### Frenchman Makes Feeling Address Just Before General Sails

BREST, Sept. 1.—General John J. Pershing, commander of the American Expeditionary force, sailed from here today on the Transport Leviathan for the United States. The steamer left port at 3 o'clock this afternoon.

Marcel Foch came aboard the transport shortly before he sailed and made a feeling address to the departing commander.

"In leaving France," said the marshal, "you leave your dead in our hands. On our soil we will care for them religiously and zealously as bearing witness of the powerful aid you brought us. These dead will bring from America many thoughts of remembrance and pious visits, and will bind still more strongly our unbreakable close union."

"If," concluded the marshal, "the clouds of war should gather in the future would not these dead rise from their tombs and make their voices heard once more by a world which already knows that the same cause the cause of liberty

## THE SUMMER SLIPS AWAY.

As people grow older time moves more rapidly, so with the grownup it is a common expression: "My, hasn't this summer slipped away!" But somehow this phrase applies to the younger people as well this year and many are the children of the public schools who can testify that they don't understand where the vacation period has gone. It seems only a week ago that the schools closed and now the opening date is only a week in the future. The superintendent and his aides are rapidly shaping school plans and there is promise for a year of earnest, successful work, even if some of the normal facilities are lacking.

## THE CHAUTAUQUA SUCCESS.

The 1919 Chautauqua is an event of the past and is on record as successful and well managed. The weather clerk was very kind this year and with the exception of one day the weather conditions were admirable. As a result the attendance on the closing day was large, the audience being made up of people from a wide area.

The Jacksonville Chautauqua has become an institution. It means much to a great many people. Its influence for better citizenship, for civic righteousness and for improved living conditions continues to increase from year to year. If some movement were now started to provide a permanent Chautauqua building the plan would have many supporters.

## BUSY MONTHS IN PROSPECT.

Business, local and general, already seems to feel the impetus that the passing of the strike crisis has given it. The appeal of the president, the action of officials of the American Federation of Labor and other factors have resulted in clearing the atmosphere. The vote of the railroad shophmen thus far taken indicates a very strong majority in favor of accepting the president's proposal and waiting at least ninety days before taking any radical action.

This is of course merely a deferred settlement but three months seem away off in the distance. But these ninety days will be mighty active ones. The fear of a strike had a tendency to cut down operations along many

lines and gave business a timidity that was anything but beneficial. Already the happy reaction is taking place.

Mrs. Hugh K. Ward, Democratic national committee-woman for Missouri, is quoted as saying that "the Democrats must clean house if they would have the women vote the party ticket."

But even then she sounds a discouraging note for she has found, in talking to new voters that "the women's ballots will be for the principle rather than for party."

At the primary election Wednesday, September 10th, Charles S. Magill, of Pisgah, and George A. Wheeler of Sinclair, are the opposing candidates on the Republican ticket, and James McDonald of Jacksonville and E. T. Samples of Pisgah are on the Democratic ticket. Register your choice of candidates. Do not sulk or hang back, but vote, then you will not be among the goody people who stay away from the polls so that they may be able to find fault with the choice after the election.

## AN ADMIRABLE STATEMENT.

President Wilson's Labor day proclamation had this year paragraphs of special moment. The president has truly sensed the seriousness of the industrial situation when he urges action which shall overcome "A danger greater than the danger of war." The presidential emphasis for the need of increased production should have its effect.

In this admirable proclamation the president says:

"Let me again emphasize my appeal to every citizen of the country to continue to give his personal support in this matter, and to make it as active as possible. Let him not only refrain from doing anything which at the moment will tend to increase the cost of living but let him do all in his power to increase the production; and further than that let him at the same time carefully economize in the matter of consumption. By common action in this direction, we shall overcome a danger greater than the danger of war. We will hold steady a situation which is fraught with possibilities of hardship and suffering to a large part of our population; we will enable the processes of production to overtake the processes of consumption; and we will see the restoration of an adequate purchasing power for wages."

## ABNORMAL DEATH RATE IN 1918.

The rate of mortality the life insurance companies had to meet in 1918 was about 32 per cent greater than in 1917 and 14 per cent greater than the average death rate for a score of years. This great advance was due mainly to the influenza epidemic, the ravages by which continued several months of the current year. Thirty-eight life insurance companies reporting to the New York insurance department were called upon to pay for death claims and endowments about \$93,000,000 more than in 1917.

The increase in death losses paid by legal reserve companies was approximately \$123,000,000 in the United States and Canada—mainly due to the influenza, on lives under age 50. To meet the exceptional mortality the surplus funds of legal reserve companies as they stood at the end of 1917 were depleted more than \$37,000,000. Normally the increase of surplus should have been about \$40,000,000, indicating a direct draft on surplus of about \$77,000,000, owing to the abnormal mortality. Fraternal orders having limited surpluses and small reserves suffered very severely.

## SEES BIG BUSINESS TO FOLLOW PEACE SETTLEMENT.

The Guaranty Trust company in a recent market review as to foreign trade expressed the opinion that when a definite peace settlement comes that a healthy state of world trade will speedily follow. The review says:

"Europe's need for goods is pressing, particularly in the matter of raw materials and fuel. Goods for our consumption will not be available until European production has recovered sufficiently to produce a surplus. We cannot be repaid for what we have loaned until industry in Europe is again humming. And industry cannot hum until raw materials and machinery are available."

Obviously, in order to protect our past loans we must lend more, in order to put them in a position to repay their past borrowings and take up again their industrial and commercial life.

"The vital factor in all this, now as for the past six months, is the extension of American credit to Europe upon terms which shall be advantageous to both sides. Until this is done European living costs will continue to soar, American markets will continue to contract, and production will be impeded on both sides of the Atlantic at the very time when production is the greatest need of the world."

"But the problem cannot be successfully attacked so long as the present uncertainty about the future of international relations continues. The lines which the world is to follow in the future must be clearly marked before the details of future international economic relations can be staked out. Granted a quick determination of peace conditions, and the assurance of adequate government support in financial undertakings, there is little doubt that the banks and industries of the country could shortly offer to Europe credit proposals that would gladly be accepted, and tend to bring into being the healthy state of trade which is the prime need of the world."

## AN IMPORTANT ELECTION.

Wednesday, the 10th of September is the date of the primary election for the selection of candidates to the constitutional convention. People of this vicinity do not seem to realize the importance of the work of this convention, that of revising the present constitution of the state. The duties of delegates elected will be manifold and arduous. All classes and divisions of the state government must be considered. The document drawn by these delegates must be submitted to the voters of the state for approval, but it is upon the wisdom and ability of delegates selected to conduct this revision that the burden of responsibility must rest. Voters should awaken to the responsibility resting upon them in the selection of their candidates for these positions. On the Republican ticket in this district are the names of James H. Paddock, George L. Conkling and Logan Hay, as they will appear on the primary ballot, all of Sangamon county, while on the Democratic ticket appear the names of A. D. Stevens and William H. Nelms.

We would appeal to men of both parties to study closely the list and vote for the men who you think from the standpoint of ability, education and experience in public affairs you would be willing to have legislate for you for the next fifty years. Of the men on the Republican ticket there is probably no man in the state better fitted by education, long experience, as a member of the legislature and as an attorney, and as a student of Illinois history than the last name on the ticket, Logan Hay. A life time resident, a conservative, conscientious man Mr. Hay would bring to the work a knowledge of its past history from every standpoint, that few men possess. Mr. Hay is a very capable lawyer and one whose opinion would be of value.

Citizens of the state should be awake to the importance of the question, sufficiently, at least, to go to the polls and vote for the men who they would like to have represent them in this work. It is of the greatest importance and should not be neglected. There are two to be elected from each district.

## USELESS NOISE

The prices still are soaring, but noise won't bring them down; not all our frenzied roaring will cheapen things in town. So let us get together, renouncing tactics vain, and as our neighbors whether we can't do something san. The prices have been speeded until our hearts are sore; and sanity is needed more than e'er before. We must be sane and thoughtful if we would lay, it's clear, our vengeful hands and swatsful upon the profiteer. No

## WHAT DO YOU DO TO

BEAT THE H. C. L.

"We believe we are cutting down some of the high cost of living in our family by keeping a dozen good laying hens," said a woman in the north end of town. I don't think it cost us over 50 cents a week for chicken feed outside of the scraps from our table. We get several eggs a day and with eggs at 50 cents a dozen I know our eggs do not cost us that much."

"I have not bought a pound of butter in many months," said a man who is trying to keep pace with the h. c. l. At our home we have been using nut margarine and we have come to like it as well as butter and the brand we use costs only a few cents more than half as much as country butter.

"I used to order my fruit from the country and it was brought to me but this year I went to the country and picked my own plums," said one man. "I could save a little that way and got the plums at 40 cents a gallon by doing the work myself."

"Beating this H. C. L. proposition is a regular game and while I used to patronize the movies quite regularly just as a matter of

vain and vapid ranting, no anarchistic wheeze, will bring the robbers panting upon their stalled knees. We must be calm and sober, an earnest, quiet troop, or long before October we'll all be in the soup. While we remain excited the profiteers will say, "These delegates beheaded are easy marks to flay. While they are raising thunder, and standing things on end, we have a chance to plunder that quiet wouldn't lend." The pirates profiteering will hear their passing knell, when we are done cheering and raising merry halloo. So let us go together, and cease our riots vain, and ask our neighbors whether we can't do something sane.

## MACOUPIN COUNTY RESIDENT DIES HERE

O. B. Cain, Prominent Resident at Atwater Passed Away at Maplewood Monday Night—Funeral Will Be Held at Atwater Thursday.

O. B. Cain, of Atwater, Macoupin county, died at Maplewood sanatorium at 9:05 o'clock Monday evening. He had been in ill-health for some time, but had been at Maplewood only a week.

Deceased was 62 years of age at the time of death. He is survived by the widow and two daughters, Mrs. Ethel Browning, of Atwater, and Mrs. Cleve Alford, of Girard.

Mr. Cain was a prominent citizen of Macoupin county, having been engaged in farming for many years. He recently retired from active work. He was a member of the Masons and Woodmen. The remains were removed to Gilham's undertaking parlors and prepared for burial this afternoon. Funeral services will be held Thursday afternoon at two o'clock with burial in Girard cemetery.

W. E. Browning of Atwater arrived in Jacksonville last night and will accompany the remains home today.

## WESTMINSTER CHURCH.

A meeting of the membership of Westminster church will be held tonight at 8 o'clock. This will take the place of the Wednesday evening service. Dr. Landis, has planned a general conference of the church membership to prepare for the activities of the year. It is expected that the members after the vacation period will enter upon the work with renewed vigor.

habit, perhaps, or believing that I needed a certain amount of recreation, I now pick out certain high class films and my trips to the movie shows are few and far between. I have a few books at home that make good reading and I believe I am saving money, or at least I use movie money to pay for the high priced food that is being pushed up somewhere along the line between the farm and the consumer."

"I know market gardeners who have bought new automobiles this year," said one buyer of vegetables and fruits. "They brought in their stuff in the old spring wagon early in the season. Later they brought it in a truck or a motor car."

"The discussion about profiteering will have one good effect," said a jobber in Jacksonville who is familiar with food conditions. "It will have a marked tendency to make us watch our step. It has been rather easy to add a little more than usual to the profit even when it is not very much and could not really be called profiteering. People have been easy buyers and high priced stuff has been selling easier."

"The nation wide talk is a good thing. It will help."

## ROUTT COLLEGE AND PAROCHIAL SCHOOLS TO OPEN TOMORROW

Work of Year Will Start Wednesday Morning—All in Readiness to Begin Studies—Practically Same Instructors as Last Year in Both Institutions—Large Enrollment Expected.

Route college and the parochial schools will open Wednesday morning.

The buildings at both institutions of learning have been placed in first class condition for the students and the majority of the children have purchased their needed books, so that practically all is in readiness to begin the work of the year tomorrow.

In the parochial schools there are eight grades, the first and second generally being consolidated insofar as they may be and are taught by one teacher. The six teachers for these schools are as follows: Sister Mary Barbara, Sister Mary Edward, Sister Mary Euphrasia, Sister Mary Basil, Sister Mary Cyril and Sister Mary Antoinette.

Route college will have practically the same instructors as last year and these will include Sister Mary Evangelist, Sister Mary Elizabeth, Father Formaz, Miss Viola Heffernan and Prof. Daugherty.

The enrollment this year promises to be large and every indication points to the success of the coming ten months school year.

## Why Brunswick Tires Win Preference

There are two main reasons—one, the name itself, which certifies superfine value—the other, that time tells the same story.

Thus reputation and performance unite in giving you all you expect—and more.

Yet Brunswicks cost no more than like-type tires. Many motorists would pay more readily, but the Brunswick idea is to GIVE the utmost, rather than to GET the utmost. And this has been true since 1845. You can appreciate what Brunswick Standards mean by trying ONE Brunswick Tire. It will be a revelation. You'll agree that you could not buy a better, regardless of price.

And, like other motorists, you'll decide to have ALL Brunswicks. Then you'll know supreme satisfaction from your tires—longer life, minimum trouble, lower cost.

The "preparation" influences his comfort-status and peace of mind for the entire year—therefore, do it right.

The young man leaving for college or university, his trunk filled with clothing that is right in every little detail, has a decided advantage over the one who is worrying about whether his clothes will be "just right."

Don't handicap him at the start. Send him away in the right frame of mind. It don't cost a cent more, and in the long run will cost less because tailored-to-order suits and overcoats last longer and look better while wearing. There's no doubt about it. ## Best Treatment for Catarrh S.S.S. Removes the Cause

## By Purifying the Blood

Once you get your blood free from impurities—cleansed of the catarrhal poisons, which it is now a prey to because of its unhealthy state—then you will be relieved of catarrh—the dripping in the throat, hawking and spitting, raw sores in the nostrils, and the disagreeable bad breath. It was caused, in the first place, because your impoverished blood was easily infected. Possibly a slight cold or contact with someone who had a cold. But the point is—don't suffer with catarrh—it is not necessary. The remedy S. S. S., discovered over fifty years ago, tested, true and tried, is obtain-

able at any drug store. It has proven its value in thousands of cases. It will do so in your case. Get S. S. S. at once and begin treatment. If yours is a long standing case, be sure to write for free expert medical advice. We will tell you how this purely vegetable blood tonic cleanses the impurities from the blood by literally washing it clean. We will prove to you that thousands of sufferers from catarrh, after consistent treatment with S. S. S., have been freed from the trouble and all its disagreeable features and restored to perfect health and vigor. Don't delay the treatment.

## Funerals

## Brown.

Funeral services for Mrs. Hannah Thompson Brown were held from the residence, 138 Sandusky street, at 10:30 o'clock Monday morning in charge of the Rev. E. B. Landis. In keeping with the wishes of the deceased the services were simple in character. Dr. Landis spoke briefly of Mrs. Brown as a woman whose life had been spent in beautiful service for her home, church, and friends.

The bearers were: R. R. Stevenson, G. C. Guthrie, J. A. Ayers, W. J. Brady, S. O. Barr and R. G. Thompson. The flowers were cared for by Misses Duer, Barr, Bellatti, and Mrs. H. P. Samuel. Interment was in Diamond Grove cemetery.

## Obituary.

Anna Thompson Brown was born in Cass county, Ill., on the third day of February, 1862.

She was a daughter of Howard and Elizabeth Thompson. When 6 years of age she moved with her parents to Jacksonville, Ill., and this city has been her home since then.

Her early school days were spent in the old Athenaeum in this city under the careful tutelage of W. D. Sanders. Music and art claimed her, and at the age of 14 years she was graduated from the Illinois Conservatory of Music and soon afterward was given her diploma from the art department of the Illinois Woman's college.

She pursued the study of music at the Cincinnati Conservatory of Music and soon after her return from Cincinnati became engaged to and married William T. Brown.

Three children were born of this marriage: Dr. J. Howard Brown of Princeton, N. J.; Susan Brown Korner of New York City, and Hazel Brown Bellatti, who preceded her in death only last November. Her husband, William T. Brown, her father, Howard Thompson, two sisters, Mrs. C. E. Pugh of Winfield, Kans., and Mrs. J. E. Cunningham of Springfield, Ill., and one brother, O. J. Thompson of Chicago, also survive her.

She was a devoted member of the Westminster Presbyterian church and in her early life spent many years as a teacher in the Sunday school and as an active worker in the church Aid societies.

Mrs. Brown's life was full of sunshine. She appreciated the good things in life and made the most of them. Her musical and art attainments were unusual and she shared them with her family and friends.

The end of her task came all too soon and she fell into that last long sleep called death on the twenty-ninth day of August, 1919.

The sunshine that brightened her home radiated in the community where she was known. The tender devotion shown by her as daughter, sister, wife and mother extended beyond her own family circle and was appreciated by all with whom she came in contact.

The community suffers a real loss when a heart like hers, that has thrived with love for her family, friends and fellow men, is changed by the hand of death into a spirit immortal.

## A SON'S TRIBUTE TO HIS MOTHER

The best tribute which a son can render to a faithful mother is a faithful son. The faithfulness of a mother in caring for her family and the faithfulness of children in providing for the comfort and happiness of parents are but outward evidence of faithfulness to ideals which involve much more than this. There should be a higher life of the family for which those who belong to such families are ever grateful. Yet how often the sincere effort of parents to provide ideals which are the basis of such a higher life degenerates into the effort to graft the ideas of the parent onto the child! I am fortunate to have belonged to a family where love of one another was always felt though not often spoken of, and so were our ideals. As I look back upon our home life it seems to me that there was a complete devotion of these things changed from time to time and in the case of different individuals.

It is the possession of these ideals with complete liberty to change our ideas which seems to me our most precious heritage. Sincere culture was held in high esteem. That we might see and know beauty and that we might express emotions for which there were no words, art was cultivated. That we might know the ideas of others and have the opportunity to form new ideas, we were given every opportunity desired for education. Blind faith was never held in high esteem

Protect Them All

## Protectall Wardrobe Bags

For Daily Use and Storage

More clothes are ruined by improper care when not in use than they are by actual wear. Why not give them the best of care by keeping them all in Protectall Bags.

By simply tucking in the dust flap your garments are protected from dust and dirt. By double folding the edge, for storage, the bag is made air-tight and moth-proof, yet it is odorless.

Protectall Bags are made of strong rope fibre paper and will last for years. The side opening makes them as convenient as your clothes closet. Several garments may be placed in one bag.

The saving in clothes and cleaning bills will pay for the bags in a very short time. Made in three sizes for dresses, suits and waists.

## LEMON JUICE TAKES OFF TAN

Girls! Make Bleaching Lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quart pint of the best freckle, sun-burn and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

**FARM PROPERTY.**  
Near the Joy Prairie elevator we offer a farm of about 160 acres, of which 70 acres are in grass and the balance in cultivation. There is a six room house with summer kitchen, barn for eight horses, and other buildings. Price \$150 per acre.  
Northeast of the city we offer 80 acres, mostly timber soil, with some excellent farming land and all well kept. Nice two story house, large barn, stock scales and other buildings. Price \$250 per acre.  
Northeast of the city we have 120 acres of timber edge land, some excellent black soil and with a fair set of improvements and nicely located. Price \$275 per acre.  
One mile from Murrayville, we have 80 acres of land, 10 acres in pasture and the balance in cultivation. Well fenced and well improved. Nice little home for \$200 per acre.  
South of the city we have 80 acres mostly good farming land; well fenced with very ordinary improvement. Price \$340 per acre.  
East of the city we have a little less than 100 acres of excellent black prairie land; well improved. A corner farm with fine buildings. Price \$250 per acre.

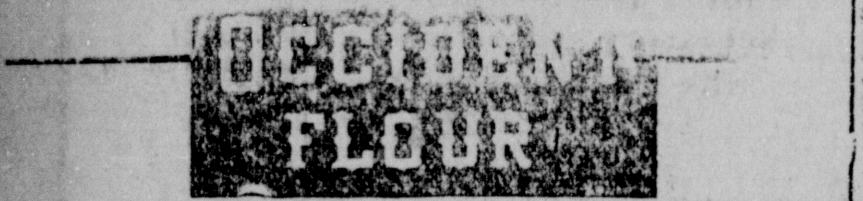

**CITY PROPERTY**  
A two flat building on west side. Everything modern. Price \$2500.  
On Grove street we have a new eight room residence, modern throughout. Price \$5000 for immediate sale.  
A splendid new residence in the west end, all modern with sleeping porch, combination barn and garage, chicken yard and fruit. Price \$5500.  
We have sold three more farms this week and still have buyers coming every day. 120,000,000 people in the United States and no more land than we had 100 years ago, no wonder we have more and more buyers each year, here will be more buyers next year but no more land.

FIRE ON OFFICER

Patrolman Stewart Faces Gun Play at Wabash Station Sunday Evening—Both Greasers Escape.

The trouble which has been brewing with Mexico and Mexican bandits for some time, did not seem so distant Sunday night when the city was visited by a couple of villainous looking greaser desperadoes.

The bandits arrived in the city on the Wabash train Sunday evening at 9 o'clock. They arrived riding the "blind baggage," that is just behind the coal tender and in front of the baggage car. Old John Law was represented at the depot in the person of Officer Raymond Stewart, a very capable young colored officer otherwise known as "Meatskin."

Officer Stewart had his eye on the suspicious looking pair as soon as they struck the concrete in front of the station. Leisurely he strolled toward them, but as soon as they caught a glimpse of the star on his coat one of the men turned and ran down the Wabash tracks to the east. The other Mex turned toward the train, and just as it started to move out climbed back again onto the blind baggage. Stewart was right after him by this time and coming near the bandit he ordered him to get off. In reply the greaser pulled a gun from his coat pocket and fired at the patrolman. The bullet narrowly missed Stewart's head. The officer immediately pulled his revolver and fired twice at the Mexican, both shots going low. The officer stated afterward that he was afraid to fire too high for fear that the shots would strike the engineer in the cab. He kept snapping the hammer but the spring which forces the cylinder around had broken and this of course rendered the weapon useless. The train pulled out and the Mexican with it.

Stewart then turned his attention to the greaser who had beat it down the tracks some moments earlier. He searched the neighborhood for hour or so and failing to find any trace of the man reported back to headquarters and told of his experience. By this time the Wabash had passed Springfield and it was not possible to apprehend the gun man on the train.

It is a proverb of China: Blossom Land that beauty of face and figure depend on womanly health.

What is it that makes our American women pale, sallow-faced, with dark circles under their eyes, and often old at forty-five when they should be in their prime?

Women suffer in girlhood from backache, rheumatism, and other ailments, the spine-ache and headaches, followed by irregularities and as a result disease of the womanly organs are more common than any one but a physician in active medicine could suppose.

After long experience in the treatment of women's diseases, Dr. Pierce evolved a vegetable tonic and corrective which he called Dr. Pierce's Favorite Prescription. This is a purely vegetable preparation, free from a particle of alcohol contains

When a woman complains of backache, rheumatism, or pain—when everything looks black before her eyes—a dragging feeling, bearing-down, with nervousness, she should turn to this "temperance" herb. It can be obtained in almost every drug store in the land and the ingredients are printed in plain English on its wrapper. Put up in tablets or liquid. Dr. Pierce, of Invalids' Hotel, Buffalo, N. Y., will send a trial size of it for ten cents.

Winchester High School Boys Give Pleasing Program Monday on Occasion of Initial Performance—Other News of Interest.

Winchester, Sept. 1.—The Winchester schools opened Monday with an enrollment of 252 in the grades and 120 in the high school. The day was ideal for the start of the school year. At ten o'clock the high school band of twenty pieces made its first appearance. The band gave a very pleasing concert in the park to a large and appreciative audience. F. R. Waters is deserving of a great deal of credit in training the boys to their present state of perfection in four months' time. All who heard the concert were unanimous in their praise of the splendid skill and technic displayed by the young members of the band. It is needless to state that the Winchester people are proud of them. The concert included the following numbers:

March, "Troop A," by Mackie-Beyer.  
Pansy Waltz, by Emil Ascher.  
March, "Success," by Harold Bennett.  
"Flower Belle," by Ascher.  
"Yankee Doodle," by Ascher.  
"America."

**Surprise Party.**  
Mrs. William Kincaid and daughters Elsie and Deane were pleasantly surprised Monday evening. Mrs. Kincaid has for some time very capably filled the position of superintendent of the primary department at the Methodist church and the teachers of the Sunday school, intimate friends and neighbors to the number of twenty were present and prepared a picnic supper on the lawn of Mrs. George Stuart. A delicious supper was served. Mrs. Kincaid was presented with a beautiful piece of cut glass in appreciation of her services in the school and in token of the esteem in which she is held by her many friends. Mrs. Kincaid and daughters expect to leave shortly for Galesburg where they will reside during the winter months, one of the young ladies will attend Knox college in that city.

**Carnival Coming.**  
It is understood that members of the fire department have signed a contract and made the necessary arrangements whereby Winchester will be visited by the Moss Brothers Greater shows and carnival company during the week commencing October 13th. This is one of the largest carnival companies on the road today and the occasion of its visit here should attract many people and prove a week of enjoyment for young and old.

### Sunday Morning

The bell called the people to Sunday school conducted by C. L. Mathis. Mrs. Charles Hopper played the piano and L. B. Turner led the singing. Carl Robinson taught the Bible class, the theme being temperance with the story of Daniel and his fellows refusing the king's meats as the leading object lesson. The other classes were suitably cared for and all was successful.

Then came the sermon of the morning with Rev. W. E. Spoor in the pulpit. Rev. F. M. Crabtree read the scripture lesson and Rev. W. R. Johnson led in prayer. Dr. Spoor delivered an able and exceedingly earnest discourse, taking for his theme "The Prince of Peace" from Isaiah 9:6.

### Sunday Afternoon

The large tent was packed in the afternoon with a delighted audience. The musical work of Madame Van Loon and orchestra was all that could be desired. Three violins, cello, saxophone, drums and piano made a rare combination which added to the fine vocal work, made the bill superb. The talented performers were greeted with enthusiasm and numerous encores showed how much the artists were appreciated. All were perfect in their class. They had to come second owing to a belated train.

Lieut. Ivan Rossiter, a Canadian officer whose theme was "Behind the German Lines," from sad experiences told a fearful tale of brutal treatment on the part

of the Huns and offered some exceedingly sound advice. It is a regret that his address cannot be given in full. He paid a high compliment to Rev. M. L. Pontius with whom he traveled in the interest of the Liberty Loan and then said in part:

"It was in Sanctuary Woods that the awful conflict took place when German artillery mowed down our command and shells buried us. I was buried 'our times' and the last time wounded and taken prisoner. They always called us 'schweinhunde' dogs, and treated us accordingly."

"We had supposed the stories of German atrocities were somewhat exaggerated but the half was not told. Weak with loss of blood we were told to move and when we asked for an ambulance as is always supplied to prisoners by the allies we were told there were none for the schweinhunde. Women threw sticks and stones at us and insulted us in every way. For forty years Germany had been arranging a war of frightfulness, and now the plan was being carried out."

"We were herded in an open field, in the broiling sun and had no water to drink. Men who had rubber boots were deprived of them and no shoes were supplied. We were escorted by cavalry, the worst brutes in the German army, armed with long lances with which the slow ones were prodded when weakness caused them to lag."

"The German soldier does well when in a command properly armed and officered, but deprive him of these and he is a coward, has no initiative and is easily taken as was abundantly shown. The use of gas was the most barbarous of warfare utterly without pale of civilized nations. During 1915 and 1916 the Germans made good headway with aircraft but after the allies got a start at that they gave the Huns plenty of aerial fighting. Surely Billy Sunday was right when he said 'the Germans would have to use steps to get into hell for they were lower down than the infernal regions.'"

"The whole of Germany was camouflaged with yellow on every back. As soon as they saw a possibility of invasion of their own soil, like cowards and quitters they hastened to have an armistice and we who had stood the war so long felt very bitter 'for we felt we had been deprived of a well earned victory. In 1914 a German paper said Germany would have the last word in the war and she did; it was 'kamarad.'"

"When we were marched thru Belgium the women would sometimes try to throw us cigarettes, chocolates and the like and if German soldiers saw them do it they would knock them down and kick them. At all the hospitals we came last in getting attention; all Germans were served first. A German doctor told me I would get the use of my hands again and would be out to work in Germany all right."

"One thing they couldn't do; they couldn't keep us from smiling tho they would bring us all manner of bad news regarding our army and navy. A nurse was good to us while we were in one hospital and we asked her why and she said tho she hated us it was our constant smile that won her good will."

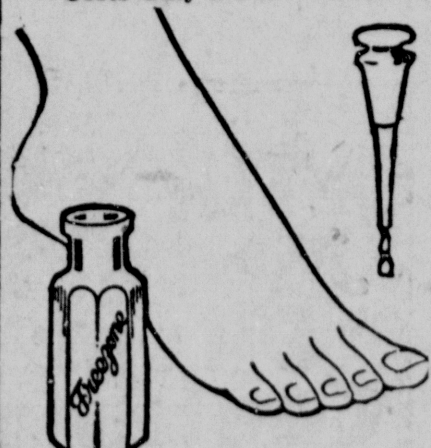

"When we were able to be

### WATCH THE HUN

Lieut. Ivan S. Rossiter.

Rossiter thrilled the great crowd which filled the chautauqua tent to overflowing Sunday afternoon with his tales of German barbarism, cruelty and friendliness toward allied prisoners. He suffered personally, having five bones taken from his hand by German butchers without an anesthetic, to render him a cripple for life. Medical men say that altho Rossiter's hand was injured it could have been treated without the necessity of removing any of the bones. The speaker warned his hearers Sunday that the German is far from being crushed but will shortly be a world factor and another war will be the result of the German government's returning strength. He says Bolshevism is Germanism. Watch it.

moved they took our uniforms from us and clothed us in all manner of articles stolen from the Belgians. In one hospital there was a large ward full of our men and seven of us, with but one arm available had to give them all the care they had."

"Our food was wretched soup net fit for a dog and not a enough at that and we were tormented with hunger all the time. Some poor Russians who had been captured, came along and begged us for a morsel to keep them from starving; offered us money which we didn't take, tho some times we did share our scanty rations."

"The Germans did not inoculate prisoners with disease to my knowledge, but they did worse; shut us in camps and prisons where tuberculosis prevailed and claimed many a victim and in hospitals given over before to filthy disease which found its way at times into our open wounds and caused death. They did give the dead a military funeral and let it be known that the names of the inhuman prison officials are known and an effort will be made to bring them to trial and we have plenty of rope."

### Praises Red Cross

"The American Red Cross was an angel of mercy saving many a life; had it not been for that hosts would have perished."

### Paraded to Cheer the People

"At one time 5,000 prisoners were taken about the country and at first it seemed strange but it was a trick to deceive the people who were told that we were recently taken prisoners in a successful battle but the fact was, the tide was beginning to turn. The war was with the whole German people; remember that, but for the German women it would have ended sooner."

### Beware of the Future

"And now beware of the future. The real leaders today were the leaders during the war and constant vigilance will be required to keep Germany from putting something over on us. I do not pretend to know the future of Russia but I do know this, that Germany will try her very best to get a foothold there and in that case in thirty years there will be another war worse than the last."

"I don't know what is best as to a league of nations but there should be a well established buffer country between Germany

### Origin of Medicines

The agents employed for the treatment of disease is taken from the three kingdoms of nature, the vegetable, animal and mineral. Most medicinal substances are taken from the vegetable kingdom and consist of leaves, flowers, seeds, barks and roots. The old-fashioned root and herb remedy, Lydia E. Pinkham's Vegetable Compound, which owes its success to the vegetable kingdom, has constantly grown in popularity and favor until it is now recognized as the standard remedy for female ills.—Adv.

## BELCHING Caused by Acid-Stomach

Let EATONIC, the wonderful modern stomach remedy, give you quick relief from disgusting belching, food-repeating, indigestion, bloated, gassy stomach, dyspepsia, heartburn and other stomach miseries. They are all caused by Acid-Stomach from which about nine people out of ten suffer in one way or another. One writes as follows: "Before I used EATONIC, I could not eat a bite without belching it right up, sour and bitter. I have not had a bit of trouble since the first tablet."

Millions are victims of Acid-Stomach without knowing it. They are weak and ailing, have poor digestion, bodies improperly nourished, although they eat heartily. Grave disorders are likely to follow if an acid-stomach is neglected. Cirrhosis of the liver, intestinal congestion, gastric catarrh of the stomach—these are only a few of the many ailments often caused by Acid-Stomach.

A sufferer from Catarrh of the Stomach of 11 years' standing writes: "I had catarrh of the stomach for 11 long years and I never found anything to ease my distress—just temporary relief—until I used EATONIC. It is a wonderful remedy and I do not want to be without it."

If you are not feeling quite right—lack energy and enthusiasm and don't know just where to locate the trouble—try EATONIC and see how much better you will feel in every way.

and Russia and it will take outside help of some kind to establish and maintain it and beware if it is not done. I am no defender of the proposed league of nations, but say that something of the kind is imperative if we are not to have another war and those who oppose the present plan should suggest something better."

"This is my last appearance as a lecturer; tonight I doff my uniform and retire to private life, plain Mr. Rossiter."

The above is but a very meager outline of an excellent address and the speaker in turn said he gave but a few fragments of a vast tale of the war.

### Sunday Evening

The first number in the evening was a vesper service led by Rev. E. B. Landis with Miss Antoinette Gouveia at the piano. The singing was very good and the address excellent. The speaker took for his theme "The Eternal Habitation"; a tent we have here an abundant opportunity for securing a lasting habitation, a home in the upper and better land.

To this all effort should be directed in a proper manner. The gentleman's remarks were heard by a large audience and respectful attention given thruout.

Mr. Heini said the prospects for next year were good, the 3,000 tickets having been practically taken and it looked as if the present year had panned out all right.

Then came Madame VonLoon whose orchestra gave even better satisfaction than in the afternoon and many encores showed how much the rare music was appreciated.

### Rev. J. M. Stevens

The last number of the season was an address by Rev. J. M. Stevens of Peoria. Tho a minister the gentleman certainly knows how to entertain a chautauqua assembly with wit and humor as well as with good sound advice. His subject was "A Cure for Pessimism." He paid a handsome compliment to Rev. W. E. Collins, chautauqua manager, and Rev. M. L. Pontius, pastor of the Christian church and the city of Jacksonville and then said in brief:

"If you want to cure pessimism don't read medical books or patent medicine literature or you will think you are sick. The Christian Scientist claims there is no sickness or pain. One was teaching a school once and a boy absent said his pa was sick but the teacher said, no, there was no such thing as sickness; pa only thought he was sick. The boy was again lon'g for his pa. He was away again longer and said pa thought he was worse and again pa thought he was worse and finally, after a longer absence pa thought he was dead."

"First: try to see the humorous side of life. A pessimist is one who, when asked to choose between two evils chooses both. Read wholesome, humorous books; smile as did our soldiers across the seas; be like Abraham Lincoln who found time for humor in the midst of his tremendous burdens."

"See the good that is in people. You can always find some good in every one. Let a man do any amount of good things and people will say nothing but let an evil story get out about him and how every one will repeat it. Say pleasant things to those about you. Don't spend flowers for the dead who can't appreciate them unless you have given them flowers in their lifetime. Use more taffy and less epitaphy."

"Look at history with an enlarged and sensible view. Grandmother, great grandmother, the dames of the revolution and all bewail the evil of the present and talk of the good old times, but the oldest history we have printed does the same thing."

"Have faith in yourself; not egotism or vanity but honest belief in what you can do. You may do great things if you have faith in your honest ability."

"Have faith in your fellow men. Don't regard every man as a rogue till you find him different, but rather believe every man honest and see the good that is in him."

"Have faith in God. He is running this universe, tho you can't see him. I ride on a railroad train and see nothing of the man at the throttle of the engine but I know he is there and will get me to my destination."

"Have faith in the immortality of the soul. There is a hereafter and it will be happy or miserable for us just as we make it in this world and no mistake. Have faith then and all will be well."

The lecture was a fine presentation of the subject and stamped the speaker as one of the first rank in his profession and thus greatly ended the chautauqua of 1919.

**TRUSTAN STEWART  
HOME FROM OVERSEAS**  
Corporal Trustan Stewart of Franklin was in the city yesterday for a visit with friends. Corporal Stewart was in the Seventh Army corps in the Intelligence section.

He served over a year in France and after the signing of the armistice was with the army of occupation in Wittlich, Germany. He was in the Musee-Argonne offensive.

Mr. Stewart has only recently returned from overseas and received his discharge. He is looking fine and said that aside from an attack of the flu last winter he enjoyed good health and also his experiences in the army.

## JOURNAL EDITOR GOES TO BLOOMINGTON

William J. Eads, for a Number of Years Telegraph Editor Accepts Position With the Bloomington Bulletin.

William J. Eads, telegraph editor of the Journal, has accepted a position on the editorial staff of the Bulletin at Bloomington and commenced his duties with that newspaper yesterday.

Mr. Eads had been in the employ of the Journal for nearly twelve years and during that time his employers came to know well of his ability as a newspaper man, as one who knows news when he sees it, and learned also of his dependability. With his co-workers Mr. Eads was popular. It is with regret that the Journal management and his associates see him make this change, but all including his many friends outside the office, wish him the best of success in Bloomington.

The Bulletin is an evening paper and an employ on such a newspaper has the advantage over the fellow on the morning sheet in that he has day work rather than night work.

Mr. Eads began his association

with the Journal many years ago in the circulation department as a carrier. He then was transferred to the business office where he was employed for a time as collector. His ability as a writer was recognized and he was given a place on the paper as a reporter. When a vacancy came on the telegraph desk Eads was given an opportunity to fill it and made good from the start. With the exception of the time he was in the army, a period of approximately a year and a half, he has been the telegraph editor of this paper since that time.

**See Duffy, the watchmaker, 225 1/2 E. State (upstairs) for prompt work.**

### VETERAN EDITOR

A VISITOR HERE

H. W. Clendenin, veteran editor of the State Register, was a visitor in Jacksonville Monday with his relatives, Mr. and Mrs. Thomas Harber and called upon a number of friends. Mr. Clendenin is now wholly blind but that fact does not prevent his taking an active part in the publication of the Register. His intellect is unimpaired and his pen is still virile.

## INDEES WON FROM VIRDEN IN NINTH

Locals Take Hard Fought Game In Scoring Two Runs In Ninth—Game Marked By Lots of Wrangling—Indies Defeated Springfield Sunday 14 to 7.

Coming from behind in the ninth with the count 3 to 2 against them the Indies showed their fighting spirit by putting over two runs and winning the Labor Day contest with Virden by a score of 14 to 3. The contest was marked by much wrangling on the part of both teams.

The visitors came up expecting to even the count with the Indies having lost their first game by a score of 5 to 4. In that game the locals also won in the ninth.

The game yesterday was largely a pitchers' battle between Boyd and Padgett. Both of the pitchers were masters of the situation most of the time and the runs were largely due to battery errors and misplays in the field. There also were some solid smashes and these were about evenly divided, the Indies getting seven and the visitors six safe blows.

For the visitors Neighbors and Sherrin played a good fielding game while Conlon was the hitting star getting two hits, one a double being responsible for two runs.

Sims pulled several wide ones at first while Christopher caught a great game. In the fifth when "Windy" Richardson the Virden catcher was at bat, Christopher threw to second to catch Conlon and "Windy" got his teeth in the way, giving the local catcher a bad cut on the hand.

How the Runs Were Made. Jacksonville was the first to score, in the second Christopher first up, hit for two. Casey McManus walked. Both runners moved up a notch on Sims' long fly to Clark. Sheerin pegged fly to third and Christopher scored. McManus took third when Neighbors erred on Riggs' hit. Riggs going to second. McManus was caught between third and home. Padgett was safe on Rankin's wild throw. Riggs, who had taken second on the play scoring. Riggs was out on a bouncer to Neighbors.

Virden tied it in the third. Padgett hit Oros with the ball and walked Sherrin. Both moved up a base on Boyd's out. Padgett to Sims, and scored on Conlon's double.

The visitors took the lead in the fourth on Neighbors' double. Parker's single and Padgett's wild throw.

That ended the scoring until the ninth, the Jacksonville filled the bases with no one out in the fifth they could not get a run over. In the ninth Riggs singled and went to second when Conlon let the ball get away from him. Padgett was safe on a fielder's choice, Riggs being caught between third and home. Seymour ran for Padgett and second. Mahan singled and Seymour was thrown out at the pan. Mahan taking second on the throw to the plate. Briggs walked. Ruble doubled and Mahan scored. Briggs taking third. Shook hit to short and Neighbors dropped the throw and Briggs counted. The score:

## The Sunday Game

There was not much to the game Sunday between the Lafayette Cadets and the Indies. The game was marked by hard hitting by both teams. However, the locals bunched their blows from the fourth inning on and gathered in fourteen runs.

The Cadets started off like real winners and had the Indies 4 to 1 when the second half of the fourth inning started. The Indies came within one of tying the score in the fourth after that there was nothing to it but counting the score. Ruble made it safe in the sixth when with the bases loaded he hit for three sacks.

The game was marked by brilliant fielding. Shook made a phenomenal catch in deep center of a drive off of the bat of Thompson. Ruble, Mahan and Sequin also did fine work. Nation and good work back of the pan and gathered four hits. Pierrard of the visitors also made four safeties while Ruble, Sims and Shook each got three.

Springfield made one in the first on a double by Pierrard and a single by Nation. Fones' single, Segin's walk and Nation's double added two in the third. Pruitt's double and Fones' single gave them the last run in the fourth.

The Indies did not get to going until the fourth, they threw away several chances with men on bases by not playing baseball. In the fourth McManus singled

Terre Haute	50	70	41
Moline	40	81	33

Peoria, Ill., Sept. 1.—The Three Eye League closed its twenty-first annual championship season today, with the Bloomington club the pennant winner, by a margin of slightly more than twelve games. Peoria finished second and Evansville was third.

Both in attendance and in the sale of young ball players, it has been the greatest season the league has experienced in the last ten years. The total attendance in the six cities will run close to three hundred thousand and already more than a dozen players have been sold to major and Class AA league clubs.

Taking the lead the third day of the season, the Peoria team remained in first place until July 13th, when it was displaced by Bloomington. The Bloomington team led for ten days, and were again routed by Peoria, the local club making the pace for ten days on this stretch, only to be crowded out again by Bloomington. Since that time the new pennant win-

ners have always been in the lead. It is the first pennant in Bloomington club has won since 1903. The team is managed by Joseph Dunn of Springfield, Ohio. The final standing is as follows:

Team	W.	L.	P.

### Brings Blessed Relief to Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease. And best of all this remedy costs

almost nothing. Get a one ounce bottle of Mentholized Archie at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled.

Then gargle as directed and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

That's all there is to it; so simple that a lot of people will say that it can't do the work but oftentimes simple natural remedies are the best as you will find after using.

If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

Work on a new million dollar addition to its plant is to be started immediately by the Champion Ignition Co., manufacturers of spark plugs, and speedometers for automobiles, according to an announcement made here.

The new unit will be four stories high, 108x178 feet, adjoining its present factory buildings on Industrial avenue. The company's output of spark plugs is 80,000 a day and the new building will provide equipment for an increase to 200,000 a day. Several new kilns for baking porcelain for spark plugs also will be constructed.

With the erection of the new building the company will install a continuous assembling system similar to that used in the Ford plant in Detroit, with electrically operated conveyors to take the parts from one department to another until the completed product is ready for marketing.

It is said this is the first building of a number planned in a program of construction covering a period of several years to come.

The annual report of the American Hide and Leather company for the year ended June 30 shows a surplus of \$2,965,001, equivalent to \$20.73 per share on \$13,000,000 of preferred stock. This compares with a surplus of \$2,385,613, on preferred stock in the previous year, after deducting \$400,000 for income and war profits taxes, which left a surplus equal to \$15.27 on the preferred.

Net manufacturing profits, after general exemption tax, amounted to \$3,280,632, an increase of only \$121,171. Total surplus of \$11,164,387 shows an increase of \$2,067,586.

The Apple Hat company, one of the largest manufacturers of hats and caps, announces that it will discontinue its selling organization in the interest of economy and sell hereafter by catalogue only. The selling expense, according to the company, is one

of the heaviest items of its overhead, and the elimination of this factor will enable them to materially reduce their prices.

Canadian Railway Commission has announced a 2 per cent increase in express rates effective Sept. 1.

American Agricultural Chemical Co. for the year ended June 30, shows net profits after federal taxes and charges of \$4,158,670 compared with \$3,111,012 for the previous year.

Chief Motors Co., of Port Huron has received an order for 1,000 of its tractor motors from a Cleveland concern. The company has purchased a new factory site and will enlarge its plant.

Belgium is inquiring for 400 locomotives and 20,000 freight cars, but equipment manufacturers admit there is little chance of business being accepted at this time since Belgium wants long term credits covering delivery of orders.

John C. Jay has been elected president of Pierce-Arrow Motor company, succeeding Colonel Charles Clifton, who remains as chairman of the board. George W. Mixer was appointed vice president and general manager in place of Menry May, resigned.

Certain-Ted Products Corporation reports gross operating profits of \$1,108,495 for the six months ended June 30. Expenses and dividends created a deficit of \$310,859, the profit and loss surplus as of June 30 amounted to \$1,013,022.

S. S. Kresge company reports sales for July of \$3,081,956, compared with \$2,846,299 in July, 1918, an increase of 8.28 per cent. Sales for the year to date total \$21,403,344, compared with \$18,468,947 in 1918, an increase of 15.89 per cent.

### WILLIAM W. EWING PASSED AWAY MONDAY

Well Known Resident Died at Passavant Hospital at 7:30 o'clock—Had Resided Here Many Years.

William Walter Ewing, a well known resident of the city, passed away at Passavant hospital Monday morning at 7:30 o'clock. Mr. Ewing submitted to an operation a few days ago, but his condition was such at the time that he was unable to withstand the shock and death came at the hour indicated. Deceased was the son of John M. and Martha Ann Eads Ewing, and was born in Girard, Ill., October 2, 1860. He is survived by one sister, Mrs. Mabel M. Stearns of Washington, D. C., his stepmother, Mrs. Emma Ewing of Eureka, three half brothers, Earl Ewing, Chicago, Walker and Allen Ewing, Eureka, Ill., and one half sister, Mrs. Madison, Rock-oke, Ill.

For a number of years Mr. Ewing was connected with the Ayers National Bank, and was a highly valued employee of that institution. Several years ago he retired from active business life because of poor health. Since then he has lived a retired life spending much of his time at the Elks club room, being a member of that order. At the time of his death he was treasurer of the Illinois Telephone company.

Mr. Ewing was a member of Central Christian church. He was a man of kindly manner and his optimistic spirit made for him many friends, to these news of his unexpected death came as a great shock.

Funeral services will be held from Central Christian church at 4:30 o'clock Wednesday afternoon in charge of Dr. Myron L. Pontius. Burial will be in Jacksonville cemetery.

Stated convocation of Hospitalier commandery, No. 31, K. T., this evening. Work Visiting Knights welcome. Refreshments. A. Rabjohns, Com. John R. Phillips, Recorder.

### F. M. GREENLEAF WEDS GIRL FROM FRANKLIN

Miss Beatrice M. Anderson Is Bride at Centenary Parsonage Ceremony Monday Morning.

At 11:30 a. m. yesterday at the parsonage of Centenary church a pleasant and quiet wedding took place, the contracting parties being F. M. Greenleaf of Kingman, Kansas, and Miss Beatrice M. Anderson of Franklin. The wedding was a quiet affair, only immediate relatives and friends being present. The ceremony was impressively performed by Rev. W. R. Leslie, pastor of Centenary church, the single ring ceremony being used and at the close congratulations were sincere and hearty.

Mr. Greenleaf is a son of Eugene Greenleaf, a graduate of the Kingman high school and a former student of Whipple academy of this city. He also studied mechanical engineering at the University of Cincinnati, and is an engineer by profession. He was a gallant soldier nearly two years in the late war, a member of the 130th field artillery in which he spent fourteen months in overseas service, during which time he saw plenty of hard and active service, coming home with a clean record and a fine reputation also.

The bride is a daughter of Mr. and Mrs. M. L. Anderson of Franklin and a lady of many charming qualities. She is a graduate of the Franklin high school and a former student of the Wesleyan university at Bloomington. She also taught school a year at Maple Grove, where she was tastefully arrayed in taupe satin and carried Wade roses.

At the close of the ceremony the wedding party took dinner, after which the newly wedded couple boarded the fast mail on the Wabash road for their home in Kingman, Kansas, taking with them the best wishes of a host of friends.

Those present at the wedding were Mr. and Mrs. M. L. Anderson, parents of the bride; G. P. Boulware, uncle of the bride; G. M. Wood, Henry Kirby of Franklin and Miss Almeda Manly of St. Louis.

### INJURED WHEN CAR HITS EMBANKMENT

Latley Stewart Receives a Cut on the Neck and Bruised Leg in Auto Accident—Five Others Also Shaken up and Bruised.

Latley Stewart of Alexander was painfully injured and five other occupants of a Chevrolet driven by Clarence Sowers were badly shaken up when the car left the road near Arnold station and ran up the embankment. Stewart received a cut on the nose and badly bruised leg. The others were slightly bruised and shaken up.

Sowers is an employee of Lester Kinnett of Alexander. The party was enroute to Jacksonville. Just as the car reached the top of the hill east of Arnold, Sowers apparently lost control of the car and it left the road and ran onto the embankment.

The car was badly damaged and was brought to the city by George Barmeyer for repairs. The injured were also brought to this city where they received medical attention.

F. L. Knapp of Dubuque, Iowa, spent the week end at the home of Mr. and Mrs. J. C. Swain near Sinclair. Mr. Knapp and John Swain were in the air service together during the war. They were stationed at Mather field adjacent to San Francisco and a warm friendship was formed. They have been associated since returning to civilian life with the Union Carbide Co. with headquarters in Chicago, and room together when in the city.

### GEORGE BLACK LOSES PORTION OF FINGER

Assistant Engineer at Railway and Light Company Power Plant Has Painful Accident Monday Morning.

George Black, an assistant engineer at the power plant of the Jacksonville Railway & Light Co., had the misfortune Monday morning to lose a portion of the index finger of his right hand.

Just how the accident occurred is not known. Mr. Black was attending to some portion of his regular duties when suddenly his right finger was caught in a moving part of the engine shearing it off at the first joint.

The injured man was taken by a fellow employee to the office of the company's physician where the finger was dressed. While the injury naturally was exceedingly painful Mr. Black insisted on walking the several blocks to the doctor's office and later to his home in the north part of town.

### BATHING BEACH HAS CLOSED FOR SEASON

Nichols Park Beach Has no Checking Service Now—People Can Still Swim if They Wish.

Sunday marked the closing of the bathing beach at Nichols park for the season. This does not mean that people cannot swim at the beach. The dressing room has been closed and Mullenix & Hamilton will not do any further checking of apparel and the life guard will not be on duty.

The beach during the past summer has proven a most popular place and thousands have availed themselves of the opportunity to take a dip in the water outside of a bath tub. The bathers have always had a large gallery and some of the swimmers have pulled some fancy stunts for the spectators.

Harold Hall, the life guard, has had a busy time but the beach has been fortunate in the matter of accidents. At times the crowd was so large it was necessary for him to have an assistant.

It is reported that plans are already under way for some improvements at the beach for next year. While the beach was in better shape than it has ever been before there are still some things that could be improved. The park board expects to make these improvements next year if it can see its way clear to use the money.

### MAY PURCHASE LOOMS FROM LOCAL FIRM

James White, Representing Northern Concern, Here to See J. Capps & Sons Relative to Purchase of Looms.

James White, head weaver of the Milwaukee Worsted Mills, was in the city Sunday to inspect some used looms belonging to J. Capps & Sons with the view of purchasing them.

The firm Mr. White represents was established about fifteen years ago and he is head weaver of the company. The company has greatly enlarged its business and is in need of additional looms.

New looms are high on the market and the local firm have some that were replaced recently with new looms. Mr. White will report his findings to his firm and it is probable that negotiations will be opened toward the purchase of the looms.

### IMPRESSIVE LABOR DAY PROGRAM GIVEN

Morning Parade Followed by Events at Nichols Park—George P. Lischer Made Address Defining Industrial Democracy.

The labor unions of Jacksonville had the boards yesterday and right splendidly did they make use of them. It was surely a red letter day in the annals of the various bodies and all went well from start to finish, no untoward incident taking place to mar the pleasure of the occasion. All were bent on having a good time and instead of going away somewhere leaving the families at home the unions stayed here and had wives, children, sweethearts and friends with them, a very sensible arrangement.

Early in the morning the notes of fine music floated on the air and soon the American Federation of Musicians, local No. 128, led by Harold O. White, appeared on the scene and were the recipients of all manner of compliments on both appearance and fine playing. W. T. Hardy is president of the local assembly while the parade of the day was in charge of James Wood, marshal, and George Smith, marshal, and the procession tarried a little beyond the appointed hour to let the morning train on the Alton arrive, bringing the orator of the day, George P. Lischer of Bloomington.

The cars were on time and shortly after the parade moved and it was a fine affair, stretching many blocks in length. First of all went the flag of our country and then the marshal and assistant marshal after which came the various bodies in the following order:

A. F. M. band.  
Platoon of police.  
City council.  
Steel bridge force.  
Meat cutters.  
Machinists.  
Boilermakers.  
Blacksmiths.  
Railroad workers.  
Cigarmakers.  
Hod carriers.  
Painters.  
Printers.  
Maintenance of way.  
Plumbers.  
Garment workers.  
Barbers.  
Carpenters.  
Bricklayers.  
Signal men.  
Sheet metal workers.

The line of march was up from the hall up East College avenue to the station, down East State street to square; around square and west on West State street to Church street; counter march to the square and South Main street and cars for the park.

The street railway company made ample provision and thru-out the day rendered admirable service without any tedious delays.

### At Nichols Park.

A lively scene was witnessed at Nichols park where all preparations had been made for a good time. The park board regretted that the regular picnic grounds couldn't be occupied but the Chautauque people couldn't get away from the fact that so tables and seats were hauled to the north edge of the lake and all preparations made for picnic parties and everything possible was done for the merry-makers of the day.

The mayor's automobile was drawn up under the trees north of the eating pavilion and around it gathered the people to hear the speakers.

**Address of Welcome.**  
Mayor Crabtree made the address of welcome and said in part:

"I am indeed glad to be with you today and take part in your exercises. I have been asked to introduce to you the speaker of the day and also to say something about community interests. Interest is a favorite word and we have needed it before and need it now. There have ever been two kinds of people, takers and doers. We have of the first kind right here in Jacksonville. They talk disparagingly of every public enterprise; prophecy its failure; predict all sorts of calamities and bewail the condition of things in general. In France our soldier boys had a slogan 'Let's go,' and when the order to advance came they went with a will. This is a serious time in the history of our nation when laboring men can do immense good for the country with wise counsels. Sometimes a nation or a city reaches the crest of a hill and then the question is: Will it rise or fall back. In that valley to the north is a prospect for water so much needed; are we going to have it succeed or not? Jacksonville has an opportunity as never before. We need a filtering plant and many other things.

"I have a hearty respect for labor unions, for they are a power in the community and I feel sure they will say to each other for the city 'Let's go.' Our boys in France showed us what can be accomplished when units work together and if we work that way there will be no trouble. Our present city council was chosen without regard to politics but all for Jacksonville and will do its best to promote the public interest and of the laboring men as of all others, when Jacksonville comes into her own and is a large, flourishing city, you may say you had your part in it.

"I now have the pleasure of introducing to you the speaker of the day, Mr. Geo. P. Lischer, state president of the Typographical union, a resident of Bloomington, and holding other important positions."

**Favors Government Ownership.**  
Mr. Lischer was received with applause and announced his

**MYERS BROTHERS.**

theme, "Modern problems." He said in part: "I shall divide my remarks into three parts, Public Ownership, Industrial Democracy, Living Wage.

"After the armistice was signed we found we had adopted some new customs, some of which we shall have to discard and some which should be maintained. Government and municipal ownership must be the slogan now. The managers of railroads had let the property run down till it was little more than a mass of rubbish and wreckage; well high useless and worthless for its intended use. The government took hold of the systems, spent millions in repairs and maintenance, paid the stockholders six per cent and ran the roads while the railroad officials were more guilty than any pacifists in trying to make the plan a failure.

**Profits for the People.**  
"We want to retain control a while longer; eliminate profits and gambling and give the employees and operating forces a chance at those dividends. This is the Plumb plan. We must go into all basic industries and keep the profits for the people; the food suppliers, the meat packing works; steel, iron, coal, all basic industries should be owned and operated by the government. Then local enterprises should be owned by municipalities: gas, electric works, water and the like. The people should own and operate these, take the profits to themselves.

"One of two things is certain: the capitalist must take less or the laborer less. We will not accept a reduction in wages. In Springfield a municipal light plant is operating very satisfactorily cutting rates in two and so may it be in Jacksonville. The railroad men will not permit any shenanigan by the owners. They will not see the roads returned to private ownership and have a reduction in wages.

**High Living Costs.**  
"Industrial democracy demands a living wage and the power by the workmen to regulate the hours they work and the conditions. The high cost of living is partly due to the great war and partly to other causes. The few have tried to exploit the many, creating a small class of rich and a great class of poor. That was what led to the downfall of Rome. Living today costs four times what it cost 20 to 30 years ago. (The speaker read a number of comparative prices showing an advance of 125 to 200 per cent between prices from 1907-11 and today). It is of little use to jail the profiteers. I pity the retail grocers. They better get out of the business as soon as possible for something is going to happen. I am wearing a suit the third year and will keep on wearing it before I will state present prices and if it wears out I will get a costume of fig leaves and a fan.

**The Changing Times.**  
"Higher wages will not alone solve this question and the man who does discover an adequate

remedy will deserve a monument. I spoke to a congregation of of miners and it took four interpreters to tell my audience what I was saying and then some didn't understand. When such things as that exist there is a force gnawing at the nation's vitals. A truce has been arranged by the president but unless something is done something surely is going to happen. My father rear a family on \$6.50 a week, laid up money and owned his own home and from the garden raised much of the family living. Now I have five times as much as he received, have four children and can hardly make ends meet. My wife is a slave and I tell you we mean to have enough to enable our children to go to school till 18 or 20 years old and enough for our wives to enjoy life. To get thru at all a man with a family needs \$1,030 a year and then insurance, old age, accidents and the like? My life is wrapped up in my four children and I can't give them the chance I desire. We mean to have these things, peacefully if possible, but we will have them. Swift, Armour and company displaced union men and put in their places rats and scabs.

**Child Labor.**  
"Gov. Lowden said the man who refuses collective bargaining has been dead forty years. When labor gets its fair share and profits are eliminated the people will get their rights and if not the Bolsheviks, already here, will get into the saddle. I have seen conditions in the slums of Chicago, St. Louis and Kansas City and they should be destroyed whether the operation is constitutional or not. In the south thousands of children under twelve work in cotton mills to enrich the owners; even Satan wouldn't stoop to that. Recommendations Co-Operative Stores.

"Legislation will not curb this evil. One great force is co-operative stores. In England they began long ago and grew to immense proportions and have been a great blessing. They are growing in this country but all too slowly. There are now some 3,000 in the country and about ninety in Illinois. Briefly, the people take stock in a co-operative establishment. With the capital goods are bought at lowest possible prices and stockholders get them at cost and handling. If any more is charged it goes as dividends to stockholders. In this way the cost of living is greatly reduced.

"Some concerns have trained rival unions against the Federation of Labor but they failed and will fail. We don't get all the straight truth from the papers. Mr. Abe and I do help make them. In Bloomington we publish the Searchlight which is devoted to the interests of labor and it tells the truth. Possibly some day then the truth will have to come. We may have a labor daily and work for the right and do the right and we shall win and have what is coming to us and may our country always be right."
